

ENDUROTECH RACING / RACE DEBRIEF

6 HOURS OF THE GLEN

WATKINS GLEN INTERNATIONAL · 2026 SEASON 3 · SIX EDR ENTRIES, FOUR TIME SLOTS

The pace was there all weekend. Pole position and a stack of laps in the 1:44s. What decided our results was not speed. It was clean air, opening laps and staying connected. Here is the full scoreboard and where we find the time next round.

THE SCOREBOARD

ENTRY & DRIVERS	RESULT	LAPS	INC	BEST LAP
8 AM SLOT · FRI 22:00 GMT				
#5 THOMAZ + VALENTIN Ferrari 296 GT3	P15 / 34 GT3 from pole (P1)	196	34	1:44.380
#6 MICHAEL + DOMINIC Porsche 911 GT3 R	P22 / 32 GT3 up from P28	190	35	1:44.996
5 PM SLOT · SAT 07:00 GMT				
#3 THOMAZ + JOEY Ferrari 296 GT3	P6 / 31 GT3 best result	200	16	1:44.998
#2 JAKE + JOHN Acura ARX-06 GTP	P8 / 14 GTP	184	61	1:34.237
#1 CHRIS + MATT Ferrari 296 GT3	DNF · DISCONNECTED	5*	2	1:45.328
#7 SAM + SAM Ferrari 296 GT3	DNF · DISCONNECTED	40*	14	1:44.930

* laps completed before the connection dropped. Both DNFs were disconnects, not crashes.

STANDOUTS & TAKEAWAYS

WHAT WENT RIGHT

JOEY TAVORA

Drive of the weekend. Started P14 in the pack and climbed all race on strategy, 132 laps with just **4 incident points**, sealed by a clean overtake at pit exit off a sharp strategy call. P6 of 31.

POLE & PACE

Valentin put #5 on pole and set our fastest GT3 lap of the weekend, 1:44.4. Multiple cars ran in the 1:44s, the Acura GTP in the 1:34s.

HEADS UP

Michael and Dominic started P28 and never dropped their heads. They kept #6 clean and steady, climbed to P22 over full distance and got the job done. Pure resilience.

FOUR FINISHERS

Four of six entries went the distance, headed by P6 of 31 in a strong split. Reliability and stamina were not the issue for the cars that stayed connected.

WENT THE DISTANCE

Every car that stayed connected ran near-full distance, 184 to 200 laps each. When EDR keeps it on track, EDR brings it home.

WHERE WE FIND THE TIME

1

CUT THE INCIDENT COUNT, GTP FIRST

The big one. The GTP Acura racked up **61 incident points**, with 52 on a single driver, and the pole Ferrari carried 34. That contact is the difference between P8 and a podium. Top priority for the GTP crew: dial the risk right down. Over six hours a clean stint beats a fast one, every time.

2

SURVIVE THE OPENING LAPS

Two front-row starts turned into trouble early. Track position is worth nothing if the car is in the wall. First stint mindset: bank the start, give room, race hard from hour two.

3

LOCK DOWN CONNECTION STABILITY

Both DNFs were disconnects, not driving errors. Chris was clean and circulating, Sam Mackenzie was 40 laps in. Check each driver's connection, iRacing settings and whether a single server drop hit more than one car.

Bottom line. The speed is not the question. Pole, a P6 and a wall of 1:44s say we belong at the front. The next step is execution: clean opening laps, lower incidents and rock-solid connections. Do that and the P6 becomes a podium, and the podium becomes a win.

NEXT: SPA

SPA-FRANCORCHAMPS, BELGIUM IS THE NEXT ROUND. Put the practice laps in now. Race-craft reps, a clean opening-lap plan and a connection check from every driver before lights out. Bring this pace to Belgium with the incidents under control and we are fighting for silverware.
